## 'Al-Kataib Foundation to Release Groundbreaking Documentary on Somalia's Economic Challenges'

**09 Shawal 1446H (07 April 2025)** – For the past 30 years, Somalia has endured a relentless economic onslaught led by Western governments, international financial institutions, and so-called foreign donor nations. These powers have created and supported servile Somali governments that have legitimized the exploitation of the country's wealth and plundering of its resources, thereby enriching foreign nations, corporations, international investors and corrupt politicians at the expense of the ordinary Somali people. This exploitation has steered the nation down a path of persistent poverty and hunger, with little regard for the welfare of its citizens, while international financial organization such as IMF and the World Bank dictate the economic policies of the country.

In a recent move that echoes this treacherous pattern, Somali President Hassan Sheikh Mohamud sent a letter to U.S. President Donald Trump offering him the country's vital resources, including key public assets such as ports, military bases, and airports. This offer follows earlier agreements with countries like Ethiopia, Turkey, and the UAE, all masked under the guise of development projects and military cooperation. However, these arrangements often mask deeper, more exploitative economic and political interests.

In response to these developments, Al-Kataib Foundation for Media Productions will soon release a critical documentary series titled "**The World Bank and IMF's Game of Deception**", which will provide a detailed examination of Somalia's economic trajectory over the past few decades and the challenges the nation continues to face. The series, available in both Somali and English, will shed light on the destructive role that global financial institutions like the IMF and World Bank play in shaping the economic future of developing nations, with a particular focus on Somalia.

The documentary will also explore the harmful economic policies imposed on Somalia by the IMF and World Bank, particularly debt relief programs and the oppressive taxation policies that have burdened the Somali population. Al-Kataib Foundation for Media Productions aims to convey in this series the perspective of Harakat Al-Shabaab Al Mujahideen and its opposition to the economic policies imposed by the IMF and the World Bank in the country, as well as the illegitimacy of the agreements that have been signed for them.

Al-Kataib Foundation for Media Productions calls on scholars, intellectuals, businessmen, and universities to stand up against the ongoing plunder of the resources, wealth, and economy of the Muslims of Somalia, and to thoroughly explore the research and arguments presented in this documentary.

The apostate Somali government and its institutions, known for their lies and misleading the public, are also urged to respond to the facts presented in this series. The documentary series will be released on **Wednesday**, 09 March, 2025.

Finally, anyone who disagrees with the facts presented in the documentary "**The World Bank and IMF's Game of Deception**" can send their views to the following email addresses:
